R-4 REMOTE

- Handheld remote and color LCD touch panel in one
- Powered by ZigBee Wireless Technology
- Instantly powers on at touch, tilt, or push button
- Control an unlimited number of devices
- Roam freely throughout a home or building when used with NetLinx ZigBee Gateway and Repeaters
- Programs via TPD4 - utilizing G4 technology
- Controlling video, audio, lighting, HVAC, shades and more has never been easier

Advanced Features of the R-4:

- Unicode multi-language screen support
- Button pads available in Spanish, French, Italian, Chinese, Mandarin, Arabic
- Supports AMX's powerful G4 graphics engine, including marquee text
- 240 x 320 resolution with 16bit/64,000 color LCD active touch screen
- Two-way communications allow the R-4 to receive device status and dynamic lists
- Unique device IDs allow independent operation of each R-4 within the home
