INTRODUCING THE AMX 5.2" MODERO VIEWPOINT MVP-5200i

Sleek. Sexy. Powerful.

These words first come to mind when describing the small, yet powerful MV-5200i. This new member of the MVP family, along with its Table and Wall Charging Stations, have all been reinvented in style, form and function for an exceptional user experience.

Design Features.

- Ultra-light, compact and thin form factor
- Available in high-gloss black or high-gloss white
- Includes bright, crisp 5.2" widescreen display (16x9) and 800x480 pixel resolution
- Faster processing and uses less energy
- Navigation wheel provides simple or sophisticated control

Communication and Security.

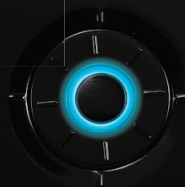

- Wireless mobility utilizing 802.11b/g wireless standard
- VoIP intercom for advanced panel-to-panel communications
- Exceptional battery life with 8 hours of continuous operation and 4 days of standby use
- Network security standards to protect your information, including: WEP, WPA, WPA2, EAP-TLS, EAP-TTLS, PEAP

Audio/Video Capabilities.

- Enables multiple JPEG and PNG images to be displayed
- Supports motion-JPEG video used in IP and web cams
- Plays MP3 and WAV audio files

Versatile Placement Options.

- Continuous battery monitoring/charging while in Table and Wall Charging Station
